EDUCATION

- **Sathyabama University, Chennai** 2026
BE, CSE(Iot and Automation) CGPA: 8.64/10
- **Sri Visvashanthi college** 2022
Board of Intermediate Education, Andhra Pradesh Percentage: 94.6
- **Keshava Reddy School** 2020
Board of Secondary Education, Andhra Pradesh CGPA: 10/10

EXPERIENCE

- **Research Intern** Chennai
Sep 2024 - Sep 2024 SIST
 - Geospatial Technology and Application.
 - Worked on map-based visualization tasks using geospatial technologies under real-time conditions.
- **Software Developer Intern** Chennai
Jan 2026 - Present BNP Paribas
 - Developed and maintained full-stack banking modules using React.js, Spring Boot, REST APIs, Hibernate/JPA, and relational databases in a J2EE environment, implementing web security practices and following Agile SDLC processes.
 - Optimized database queries in MongoDB/SQL, reducing data retrieval time by 15% for large-scale financial datasets.
 - Collaborated with senior developers in an agile environment, participating in daily scrums and utilizing Git for version control and code reviews.
 - Deployed and maintained applications using Linux, Docker, and Kubernetes, ensuring reliable deployment and efficient system management.

PERSONAL PROJECTS

- **B2B Inventory and Order Management System** [Source Code Link](#)
B2B app for inventory, orders, login, tracking.
 - **Tools & technologies used:** Visual Studio Code, GitHub, React.js, Node.js, Express.js, MongoDB, JWT, REST API
 - Built a platform for managing B2B logistics, inventory, and order processes.
 - Integrated real-time tracking and updates for smooth operations.
 - Implemented secure login and authorization using JWT for user security.
 - Collaborated in a 2-member team for end-to-end development.
- **Credit Risk Analysis using LLM and Machine Learning** [Source Code](#)
AI-powered credit risk assessment system for predicting customer creditworthiness and generating explainable risk insights.
 - **Tools & technologies used:** Python, Scikit-learn, Pandas, NumPy, Large Language Models (LLMs), Flask, SQL, HTML, CSS, JavaScript
 - Developed machine learning models to analyze customer financial data, perform feature engineering, and predict credit risk with high accuracy.
 - Integrated Large Language Models (LLMs) to generate explainable credit risk summaries and automated financial assessment reports for decision support.
 - Built a responsive web application with REST APIs for real-time credit risk prediction, report generation, and secure user interaction using Agile development practices.
- **Natural Disaster Forecasting with Streamlit and Machine Learning** [Source Code Link](#)
Developed a state-of-the-art machine learning model to predict the probability of natural disasters.
 - **Tools & technologies used:** Google Colab, Python, Scikit-learn, Machine Learning Algorithms, Streamlit
 - Utilized advanced machine learning techniques to predict natural disasters like Earthquake, Floods, Drought.
 - Achieved Accuracy of 98.2, 99.40 and 80.9 with Earthquake, Floods and Drought datasets respectively.
 - Built an interactive web-based user interface using Streamlit for real-time prediction and visualization.
 - Collaborated in a 2-member team for end-to-end development.

TECHNICAL SKILLS AND INTERESTS

Technical Skills: C++, Python, Java, SQL, HTML, CSS, JavaScript, Flask, Streamlit, REACT.js, MongoDB ,Hibernate, Spring Boot, PostgreSQL, Web Security, JDBC, Servlets, REST APIs, FastAPI, JSON, J2EE.
Key Skills: Data Structures and Algorithms, Machine Learning, Gen AI, Full Stack Web Development, Object-Oriented Programming, Agile Development, Operating Systems, Computer Networks, Apache Kafka, Docker, Kubernetes basics, Linux, Distributed Systems Fundamentals.
Tools: VS Code,Git Hub,Android Studio,Jupyter,Postman,Jenkins,Eclipse,IntelliJ.
Other Skills: Team Management and Working abilities, Leadership, Adaptability, Multitasking, Communication Skills.

SELF LEARNING AND ACCOMPLISHMENTS

- **Hackathon Certified:** Woodpecker Hackathon
- **Hackathon Certified:** NammaYatri Mobility Challenge
- **Hackathon Certified:** BNP Paribas Innoversite
- **Nptel Certified:** Software Conceptual Design
- **Nptel Certified:** Foundation of Cloud Iot Edge ML

POSITIONS OF RESPONSIBILITY

- | | |
|--|------------------|
| • TeamLead(College Hackathon Club), responsible for organizing and leading hackathons | <i>2023-2026</i> |
| • Student Coordinator(College SoftSkills Club), Member | <i>2023-2026</i> |
